SUMMARY

Full Stack Developer with 2+ years of experience building scalable web applications using PHP, Laravel, JavaScript, and MySQL. Strong foundation in object-oriented programming, database design, and REST API development. Recently expanded my expertise by developing a full-stack subscription platform using React, Next.js, NestJS, TypeScript, PostgreSQL, and Flutter. A quick learner who enjoys adopting new technologies, solving real-world problems, and collaborating with diverse teams and cultures to build scalable software solutions.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, PHP, Java, SQL

Frontend: React, Next.js, HTML, CSS, Tailwind CSS, Bootstrap

Backend: NestJS, Node.js, Laravel

Mobile: Flutter

Databases: PostgreSQL, MySQL, Redis

Cloud & DevOps: Docker, PgBouncer, Cloudflare, Git

EXPERIENCE

Full Stack Developer

2024 – Present

- Designed and developed scalable full-stack applications using React, Next.js, NestJS, PostgreSQL, and Flutter.
- Built REST APIs with JWT authentication, role-based access control, wallet management, subscriptions, and order processing.
- Designed warehouse, inventory, dispatch, and delivery management systems for subscription-based businesses.
- Optimized application performance using Redis caching, PgBouncer connection pooling, Docker, and Cloudflare CDN.
- Collaborated with cross-functional teams to deliver production-ready features from database design to deployment.

PROJECTS

F2H (Farm to Home) — Subscription Milk Delivery Platform

2026

- Led the end-to-end development of a subscription-based milk delivery platform, driving project planning, architecture, technical decision-making, and execution.
- Managed development activities, coordinated implementation across modules, and ensured scalable system design and timely feature delivery.
- Designed warehouse, inventory, stock movement, production batch, dispatch planning, and bottle/container tracking modules.
- Integrated a Flutter customer application with subscriptions, wallet, COD, notifications, and order management.
- **Tech:** React, Next.js, NestJS, TypeScript, PostgreSQL, Flutter, Redis, Docker, Cloudflare

Got It — HR Management System

Dec 2025

- Contributed to the development of key HR modules, including Leave Management, Shift Management, and Report Management.
- Developed backend APIs and business logic for employee leave requests, shift scheduling, approvals, and reporting.
- Worked within a multi-tenant architecture supporting secure data isolation and scalable deployment.
- Collaborated with the development team to implement and maintain HR features while resolving production issues.
- **Tech:** Laravel, Node.js, MySQL

EDUCATION

M.Com, Dravidian University — GPA: 7.62/10

2022

B.A. Computer Applications, S.V. University — GPA: 6.90/10

2020

COURSEWORK

Data Structures, Algorithms, DBMS, Object-Oriented Programming,
